THE FINEST DOOR YOU CAN BUY

"2 Plus 2" is our brand name. 2 Plus 2 also describes our product, the best designed, highest quality patio door you can buy.

2 Plus 2 gives you two sets of 2 panels. Each set works in harmony to multiply the resistance to air and water infiltration, energy efficiency, noise suppression and your security.

The original 2 Plus 2 has the features and built-in quality that year after year, delights tens of thousands of customers who recommend the 2 Plus 2 patio door to friends and family.

NOBODY builds leading-edge patio doors like Standard Doors Inc. has for over 50 years.

Door with white rectangular standard grills

BENEFITS

HEAT REFLECTIVE LOW-E GLASS WITH ARGON GAS

Reflects heated air in winter to keep you warmer

Reflects hot summer air to keep you cool

EXCLUSIVE LOCKING SYSTEM

Our handle is built to last. Made of ultra-resistant compounds, it will never tarnish. The ergonomic handle provides a comfortable grip and effortless sliding. You will feel safe knowing that our handle is LEVEL 40 certified, the highest level of safety in North America.

The 2 PLUS 2 patio door offers the equivalent of double LEVEL 40 because each set of panels is certified LEVEL 40. You even achieve Level 40 when you lock your panels to benefit from indirect ventilation on hot nights.

MAXIMUM SECURITY

Prevent forced entry with stainless steel load bolts, double hooks and keepers.

All four handles are anchored to a 1/8" steel security plate behind the frame.

Eliminate exterior removal of panels with anti-lift devices.
