

SOPHISTICA

COLLECTION

FEATURES & OPTIONS

1

PVC or aluminum contour or contemporary glass moulding to match your style.
Standard feature: PVC contour moulding.

2

Standard Ball Bearing Hinges for smooth operation. Upgrade to spring hinges for self closing action or stainless steel for corrosion resistance.

3

Primed fingerjointed pine frame with optional exterior finishings: Paintable, PVC, or aluminum capping.

4

Factory white 24 gauge steel slab can be painted the colour of your choosing.

5

Exclusive hybrid aluminum extruded nonwarping post provides superior strength, durability and curb appeal (available on double doors or doors with sidelites).

6

Fixed sidelites can be upgraded to semi-active sidelites that can swing open to create a wider entrance.

7

Choose either long reach dual-seal compression or magnetic weatherstrip.

8

Exclusive sill and corner seal design provide superior water resistance and are easy to clean.

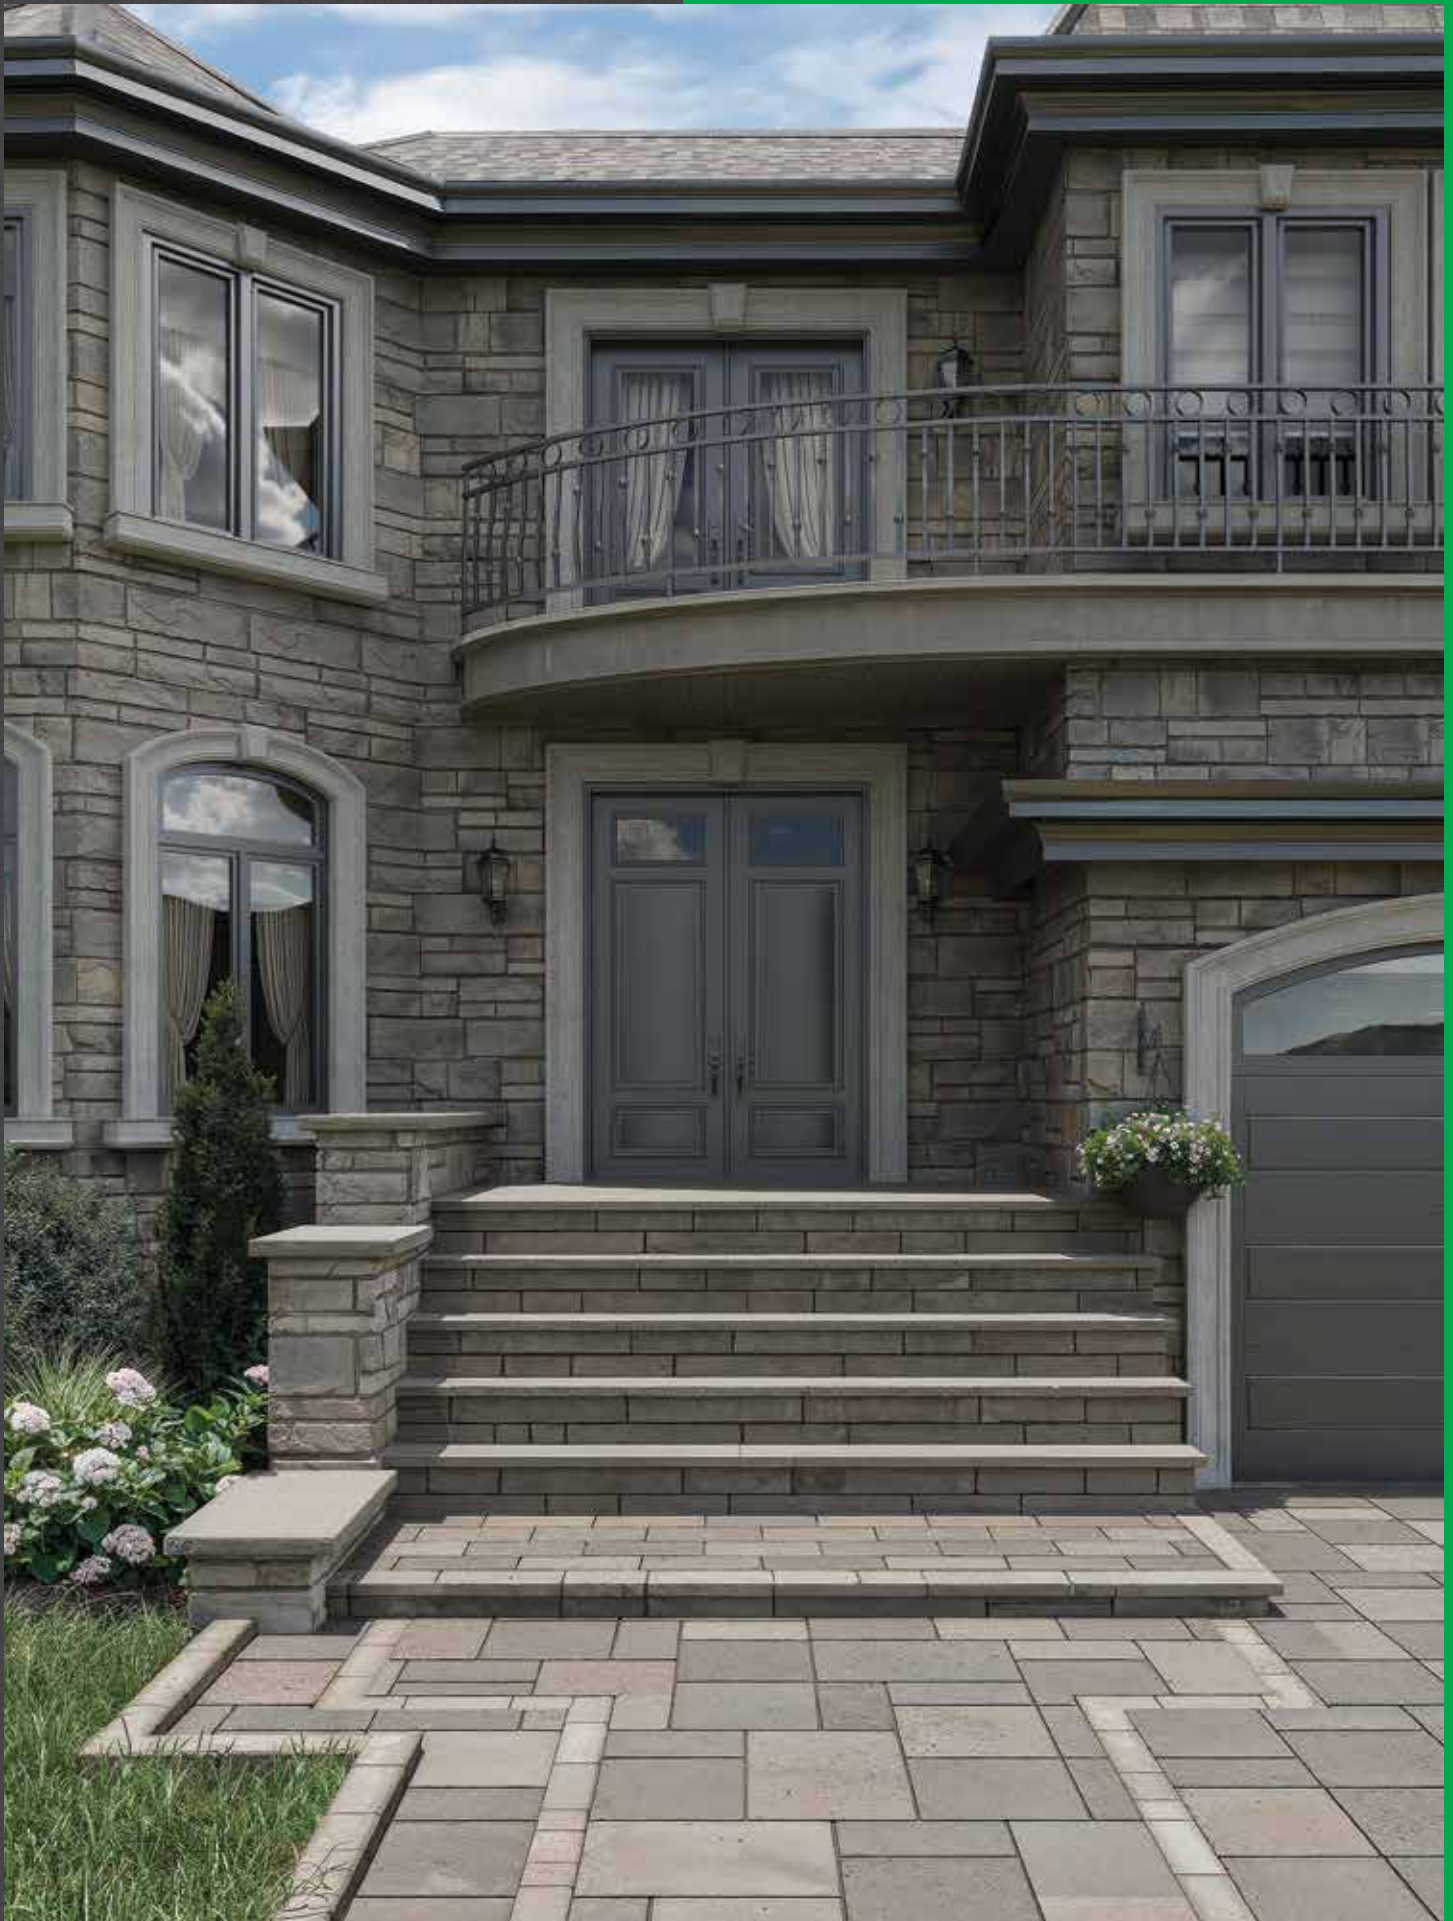

9

Clear anodized aluminum sill with PVC thermal barrier shown, also available in black anodized aluminum.

DEFENDOOR SECURITY PACKAGE OPTION

Upgrade your security with the exclusive **DEFENDOOR** 5 point security system.

The **DEFENDOOR** 5 point security system is rated up to Level 40*, the highest obtainable level in North America for resistance to forced entry.

1

The **DEFENDOOR** deadbolt 11 gauge security plate is anchored to both the door frame and the house structure for maximum protection.

2

The **DEFENDOOR** 11 gauge security plate is bolted to the strike plate.

3-5

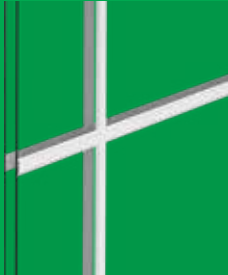

The **DEFENDOOR** 11 gauge security plates are bolted to each hinge and anchored to the house structure.

*Level 40 security achieved on single doors without glass paired with a Weiser Grade 1 deadbolt.
